

### REMARKS

In response to the Restriction Requirement mailed December 13, 2002, Applicants elect Group IV without traverse. Applicants note this election is made solely in the interest of expediting prosecution of this application and Applicants reserve the right to traverse division between Groups I-III and V-X and division between species in subsequent divisional filings. Applicants also reserve the right to file divisional applications relating to these claims without the need to file a terminal disclaimer.

Claims 46-48, 50-55 and 60 have been canceled. Claims 43-45, 49 and 56-59 have been amended to comply with the election of Group IV for further prosecution. Applicants note that these amendments merely cancel claims not falling within the subject matter of Group IV and amend the remaining claims to remove SEQ ID NO's not falling within the subject matter of Group IV. Accordingly, Applicants contend no new matter has been entered into the application.

All of the amended claims are believed to be in condition for allowance. In the event the Examiner has any questions regarding this application, the Examiner is invited to contact the undersigned representative at (303)863-9700.

Respectfully submitted,

SHERIDAN ROSS P.C.
